This Excel file includes the information requested for the *Importer list* service. The "Importers" sheet contains the following data:

- Importing company details.
- Number of import operations carried out by each importing company for the latest year available.
- Value imported by each importer in the reference year, expressed in US dollars.
- Volume imported by each importer in the reference year, expressed in kilograms.
- Average price of each importer's imports, expressed in US dollars per kilogram.

It also includes a combined chart of the number of operations and the total value imported by each importing company.

The statistical data are obtained from the country's official customs authority and cover all operations registered at Customs, for imports made by any means of transport (sea, air or land).

Note: the importing companies' data included in this report are fictitious and are presented for illustrative purposes only.
